SKILLS

- Sales Communication
- Client Engagement
- Problem-Solving & Negotiation
- Lead Follow-ups & Conversion
- Software Developer
- MS Excel / Reporting

WORK EXPERIENCE

Priva Technologies Pvt. Ltd. - Software Engineer Consultant

2024-2025

Developed and deployed scalable MERN stack web applications with a strong focus on performance, reliability, and clean code. Designed and optimized RESTful APIs, built responsive user interfaces using React.js and Tailwind CSS, and collaborated closely with cross-functional teams in Agile environments to deliver high-quality solutions.

- Conducted demos and explained product features to non-technical stakeholders.
- Supported client communication and requirement discussions to ensure satisfaction.

PROJECTS

FocusFlow- Focus Tracker & Blocker

- Full-stack productivity app with a Pomodoro timer, smart website blocker, and real-time analytics using React, TypeScript, and Supabase.
- Explained app features to users and gathered feedback for improvements.

DiceyDecisions-Gamified Polling App

- Gamified decision-making platform with live voting, dice/spinner/coin tiebreakers, and real-time results using React + Supabase.
- Secure room-based voting with anonymous responses, role-based access, and engaging animations.

Why Sales

- Actively transitioning into sales to leverage strong communication, customer handling, and problem-solving skills to drive business growth.
